

Concrete Hoppers

Concrete Hoppers - The self-dumping hopper accessory can automatically trigger to both unload and release as the bumper release touches the side of a dumpster. As soon as dumping is completed, the hopper is able to go back to original upright and locked position. This piece of equipment is also existing along with a cable which allows operation from the seat of the forklift to be able to have the option of manually unloading the hopper. There is a locking chain provided to be able to secure the hopper to the tine truck. This product is constructed with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper likewise has a blue powder coat finish in order to maintain durability.
