

Advance-Nilfisk Parts

Advance-Nilfisk Parts - Imagine how long and tiresome it would be to clean-up after a party, with no assistance from machines. Previously, the dirt from upholstery and carpets had to be beat out of them by hand; brooms, brushes and cleaning cloths were the leading cleaning products at the time.

The man who established Nilfisk-Advance, P.A. Fisker, started out as an electrical engineer who liked to work on electrical motors. After establishing his business in 1906, he began to produce motors to drive drills, coffee grinders, fans and machine tools. Mr. Fisker's dream from the beginning was to own an international company selling merchandise globally.

The Nilfisk C1 was a remarkable breakthrough for the cleaning business. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed only 17.5 kilos and can be operated by one individual. This creation came in a time where other cleaning machines were huge and required 4 or more operators, hence, the Nilfisk C1 transformed everything and evolved the way we clean forever. The mastermind behind these first cleaning equipment remains unparalleled. Cleaning equipment provide a brilliant solution to an existing dilemma; things get dirty and should be cleaned regularly, without too much effort.

Gradually, the business Nilfisk-Advance grew all through the years. In the the early part of the 1980's the company developed fast when the company became a part of the NKT Group. With new owners on board, they concentrated on driving Nilfisk-Advance forward within the business, trying to be an active global player in manufacturing professional cleaning equipment. Nilfisk-Advance is presently located in every part of the globe due to gradually acquiring many small companies in order to expand their product selection and presence in new markets. They are proud to offer different cleaning solutions to fit each and every requirement.
