

## Spreader Bar for Forklifts

Spreader Bar for Forklifts - ELME has been proudly operating ever since 1974, becoming the largest independent spreader manufacturer all-around the globe. They are a devoted producer of spreaders intended for many different applications like the handling of containers, swap bodies and trailers.

Engineering is done in house by means of making use of the latest CAD systems and FEM tools. The ELME company now has more than one hundred twenty five employees. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside around the globe.

The product collection of ELME include numerous spreaders meant for different trailer and container handling operations. Some of their inventory include: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers and a wide variety of attachments.

Manufacturing and production of ELME products are established in highly automated purpose built factory. In the year 2008, they made one thousand one hundred fifty spreaders by way of using quality components in order to ensure dependability and excellent standards. Major characteristics of ELME comprise design simplicity, market feedback and innovative modular spreader concept.
